WORSHIPPING GOD

IN BRAZIL

Above King and Priscilla presenting William Souza, President of MYAF, with an Alabaster Project shirt. To the right of William is Bishop Joao Carlos Lopes of the Methodist Church, Brazil.

Will you lay down your life for these who have not heard?

“PRAISE THE LORD”

In November, 2016 it was our pleasure to speak at the Methodist Young Adult Federation in Brazil. From the beginning of the conference the atmosphere was one of an electric charge with more than 500 youth gathered to hear from God to know how they can best serve Him. King taught for three days how a desire to serve God can be translated into a life style of action and obedience.

ZEAL + LOVE = ACTION

Our love for God becomes plain for others to see when we are serving Him by serving others.

“This is how we know what love is: Jesus Christ laid down his life for us. And we ought to lay down our lives for our brothers and sisters.” 1 John 3:16

TRANSFORMING THROUGH DILIGENCE

In January, 2016, *Teach To Transform* visited Bethany Village and taught 150 participants in the areas of mid-wifery and wound care. There was much excitement and anticipation on behalf of the students. After the training each individual was admonished to use the knowledge they had attained to help others in their village. Dr. Tom Mckecknie and his wife, Karen returned again this year, January 2017 to do follow-up training.

Sixty participants were invited to take part in this year's training. These 60 people have been diligent in serving the members of their communities, and more than 300 healthy babies have been delivered. Those providing wound care were able to share the love of Christ through the training they have received!

I-TEC IN ACTION AT BETHANY VILLAGE

previous president and founder of I-TEC, invented the mobile dental chair which we now use during ministry outreach in remote places without medical facilities. The current president, Steve Buer is continuing the legacy by teaching how one can repair his own motorbike or vehicle when little or no mechanical services are available. People are still talking about the training received during their visit January, 2017.

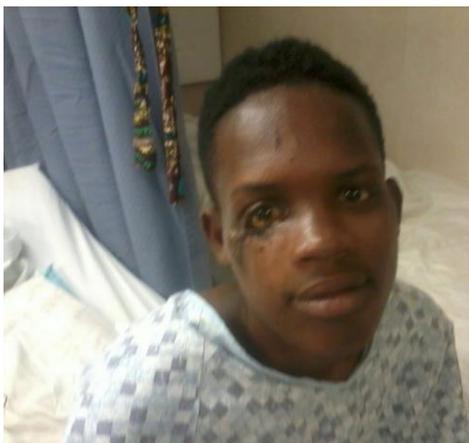

I-TEC has been a part of Alabaster Project almost from its inception. Steve Saint,

CHRISTMAS 2016

Last December, we celebrated Christmas a little differently than in previous years. We felt we should invite only the widows and orphans and love them with our undivided attention. We were able to give them many presents thanks to generous donors. There were many smiles and great joy at the end of the day. What a great time of fellowship we had eating and dancing before the Lord!

UPDATE ON HASUN

Hasun, just 24 hrs. after surgery

In our last newsletter, we mentioned a young man by the name of Hasun. Hasun has had his second surgery last January 24th. Hasun had a disease called Noma which had penetrated not only his eye but the bone structure of his face as well. One can only imagine his feelings after receiving surgery which saved his right eye and helped to open his eyes to the Kingdom of God. Hasun received professional medical care and brotherly love on the Mercy Ship which is currently stationed off the coast of Benin, West Africa.

Just before Hasun returned to Benin for his second surgery, his father paid us a visit to express his gratitude. Although he has not accepted Christ, he does now realize that all things are possible with God and nothing will be impossible.
