

ALABASTER PROJECT

VOLUME 19 NO. 2

MAY 27, 2019

GENERATOR INSTALLED

During the time of very intense heat with humidity and temperatures over a hundred here in the northern region of Ghana, God sent a team consisting of three faithful men to Bethany Village to install our generator which was purchased last year. The generator is working perfectly and we are very grateful to God for sending Will, Jim and Bill to help us with all the electrical work of the installation. We truly enjoyed our time of fellowship together.

BOREHOLE AT BETHANY VILLAGE

Not only have we had problems with electricity over the years, in addition, Lack of water has also been a source of distraction for us. God has granted to us a borehole which will provide water that we can use for farming, construction and consumption. God said, seek first the Kingdom of God and all these things will be added. Through the generosity of a widow, the Lord has supplied us with a productive well in

Bethany Village. As we seek the kingdom of God above all things, He will supply all our needs. *Oh magnify the Lord with us, for great things he has done for us.*

DENTAL CLINIC RECEIVE DONATION

Since the inception of the dental clinic about 14 years ago, the Lord has blessed us with many well wishers and donors.

One of such generous donors who has being consistent and cheerful in his giving is Dr. Eric. Through his generosity the people of the northern region of Ghana have received quality and consistent dental care. *May the Lord continue to bless him and every donor. May they never lack any good thing. Amen.*

WIDOWS RECEIVE FOOD

After returning to Ghana we were greeted by our mothers, the widows of Cheshegu. These faithful widows do not cease to pray for us and our family. Though they are persecuted by their unbelieving relatives they continue to follow Jesus. May the Lord remember them for good for how many of us would risk being ostracized from our loved ones for the sake of gaining Christ? God placed it on our heart to take corn to them as there is usually a shortage of food during this time of the year. ***Please pray for all the widows, may they continue to holdfast to the end.***

ANIMAL FARM

We are happy to report that our male goat which was purchased from stock bred in Burkina Faso has fathered nine kids. We thank God as all the kids are much larger than our previous stock. We have plans to purchase two more males bred in Burkina Faso and three more females. ***Please pray for us as we continue to expand our animal husbandry.***

Hasun is growing in the Lord and continues to manage the animal farm. He and his wife Rukaya and their first child are still residing in the house we built for them on the animal farm in the village of Sanga. Most first generation believers from unreached people groups do go through persecution, these persecution could be physical, mental or emotional. Being the only believers in their respective families, Hasun and his wife have persevered through severe family tumult. ***Please pray for them that God will give them the strength and the courage to continue standing.***

THE GRADUATES

May 11, 2019 will be a day to remember for many years to come in our family history. Both Benton and Elyse graduated that day from Regent University. Benton received his Masters degree in film production and Elyse received her undergraduate degree in English.

They are both excited to begin their respective careers. Benton is prepared to work in the television industry and Elyse is a writer. We ask that you continue to pray for them as they follow the Lord's will for their lives. They have been challenged to go into the world and make a difference for Christ.
