TO THE ENDS OF THE EARTH

TEACHING AND WARNING  
ALL MEN

***TAKING THE  
GOSPEL, CARE AND  
COMPASSION TO  
WHERE IT IS  
NEEDED THE MOST.***

MINISTRY OUTREACH

## PRAISE THE LORD!!!!!!

We are happy to inform everyone that the 40 ft container is heading to North Africa. After many months of prayers it is finally on the way, ETA July 15th. It will arrive in Cameroon, and trucked through the Sahara to our mission base. The contents of the container will enable us to establish and run eye care and dental clinics. *Please continue to pray, for our brothers and sisters in north Africa who are waiting with great anticipation for the medical equipment to arrive.*

## ROUND TABLE DISCUSSIONS

Last February, we hosted several leaders of sending organizations at our mission base in Ghana. These were long time friends, and fellow workers in the Kingdom of God. We held round table discussions, on actively evangelizing and discipling the unreached people groups of North Africa. There was a consensus of working together to accomplish the last commandment of Jesus Christ– make disciples of all nations. As Jesus prayed in John 17: 21 and 23, “That we may be one so that the world may know that God has sent His Son and has loved us as He has loved His Son.” The longer we work in God’s vineyard the more we understand this scripture. We all have special talents and giftings from God which brings harmony and focus to the work of God.

**“...WHOEVER LOSES HIS LIFE FOR MY SAKE WILL FIND IT”  
MATTHEW 10:39**

A Brazilian couple has joined us in service to the people of North Africa. Wesley an industrial technician and his wife Helen, an agronomist. They came on a fact finding visit, to help them better prepare to serve through agriculture. They spent a few weeks acquainting themselves with the area, taking soil samples, assessing the need for solar power, and getting to know the people. *Please remember to pray for this young couple as they seek to answer the call of God for their life.*

## A WARM WELCOME

We had a nice meeting with the mayor who made us feel very welcome. He took time from his schedule to show us his farm. He is very excited to have an agronomist from Brazil, since farming is one of his passions. The agricultural project meets his approval. With so much water just beneath the surface of the ground provided by the Lord, we are anticipating a fruitful farming project. The mayor did mention that, they lacked modern farming techniques called upon the agronomists to help the farmers acquire new skills to improve their food production.

## MINISTRY OUTREACH

Ministry outreach is going forward on our base in North Africa. Evangelism is our main focus with care and compassion as a component.

John uses community health evangelism to share the love of Christ. We really appreciate those who have partnered with us to pray for this ministry. *Please continue in prayer, for God honors the fervent prayers of the righteous.*

We feel excited about what God is doing in this area of the world. We continue to plant seeds knowing that God will give the increase.

Priscilla is illustrating how to check the blood glucose level.

## WALLS

We had several days of reflections as we repaired the walls around our base in North Africa. Reinforcing the wall around the property is prudent, as we are expecting a container load of medical equipment and other necessary items needed to run an efficient mission base, and medical clinics. Walls represent security

in most cases. When we think of the wall around our base, it reminds us of the wall mentioned in the book of Revelation, the New Jerusalem having a great and high wall. (Rev. 21: 10-21) This wall has a foundation of precious stones. God is very extravagant and he gives all things liberally. When God spoke to us to go into all the world and preach the gospel of the Kingdom of God, He asked us to give of ourselves liberally for Him. In the book of (Matthew, 26: 6-8), this liberal giving was seen by the disciples as a waste. In other words, only the best for Him, knowing that He has given His very best to us.

## MAKING DISCIPLES

We have been hosting discipleship meetings in the village of Limo for several years. Pastor Silas and his wife, Memunatu, both have a heart to reach their community with the gospel of Jesus Christ. Limo is an unreached village located southwest of Tamale. This Assemblies of God church caters to four villages.

Each Saturday we meet to study scriptures, ask questions, encourage the believers, and discuss various community issues that affect their lives, taking every opportunity to share the love of Christ. The questions always center around how we can apply the word of God to our daily walk with Him. Each Sunday Pastor Silas or his wife can be heard sharing with their congregation the scriptures that were expounded on during the discipleship gathering the Saturday before. Believers walk 20 to 50 kilometers to worship with other believers. As a result, not one village but five villages are being discipled from one meeting with our disciples.

Never missing an opportunity, King arrives from North Africa late Friday afternoon and Saturday afternoon he is teaching in the village of Limo.
